

HOT AIR GENERATOR (OIL-GAS)

ASCENT manufactures high-efficiency Hot Air Generators designed for diverse applications, including spray booth painting and agro-based product heating. Available in Direct and Indirect systems, they ensure maintenance-free operation. Direct systems handle high-temperature drying, while Indirect systems deliver pure air for sensitive processes. Featuring a multi-pass counter-current design with up to 88% efficiency, they are fully automatic with temperature control and compact, skid-mounted construction.

TECHNICAL DETAILS

Model No.	AHA - 10	AHA - 20	AHA - 30	AHA - 40	AHA - 50	AHA - 60	AHA - 80	AHA - 100
Capacity	1,00,000	2,00,000	3,00,000	4,00,000	5,00,000	6,00,000	8,00,000	10,00,000

Higher capacity available on request.
